**Online open workshop about peer-to-peer learning and about the first results of the XP2P project
(1st Multiplier Event)**

The XP2P project is a collaboration between the Université Savoie Mont Blanc, the Technical University of Cluj-Napoca, and the University of Applied Sciences Kaiserslautern. Our goal is to integrate new teaching and learning methods in engineering with a focus on mechatronics. We are investigating the influence of peer-to-peer learning in connection with an e-portfolio on the acquisition of competencies by students. We are looking forward to welcoming you at our open workshop in a Zoom meeting.
